PERSONAL DETAILS

Date of Birth : 20th June 1998

Nationality : Indian

EXPERIENCE

Whoofey Ads

11th August 2021 - Present

Associate Developer
I'm currently employed by Whoofey Ads as a backend engineer.

Techrupt Innovation

5th July 2021 - 16th September 2021

Backend Developer Internship
I interned at Techrupt Innovation as a back-end developer. Our technology was NodeJs and MySql, and I was given the task of creating a REST API.

Cisco Thingqbator

14th June 2019 - 24th June 2019

IOT Internship
I worked as an IoT intern at Cisco Thingqbator. We were given a project to complete during our internship, which had to be completed within the time frame of the programme.

PROJECTS

● **Health Monitoring System Using IOT**

The project's main goal is for specialists to be able to monitor the patient's status from afar utilizing this equipment. We employed IoT devices such as the ESP32, AD8232 ECG Sensor to obtain patient ECG data, the DS18B20 Temperature Sensor to obtain the patient's body temperature, and the Pulse Sensor to obtain the patient's pulse rate. If the related data exceed a threshold value specified, the gadget will send an alert email to the patient's family and the specialist.

● **Real Time Chat Application**

Websocket.io and nodejs were used to create this real-time web chat application. You can type in the name of a room to enter it and chat with the individuals who are currently in it.

● **Blog Post**

I created this blogpost application with Nodejs and Mongoddb. Where you can make an account and post your work.

EXTRACURRICULAR ACTIVITIES

Volunteer at Robinhood Army

DECLARATION

To the best of my knowledge and belief, I solemnly declare that all of the foregoing information is correct.
